

Install a programmable thermostat and set the thermostat to 78°F when you are not at home.

Maximize your dishwasher savings by using the air dry feature instead of baking your dishes dry.

Put your hot water heater on a timer.

Use cold water for all loads and cut your "hot waste" because 10% of the energy used to wash clothes is used by the motor; 90% is used when heating the water!

Turn on fans in rooms you are occupying to cool the ambient air temperature. Turn them off when you leave the room.

TOP 10 ENERGY SAVING TIPS
